NOTICE OF VIOLATION

The Administrator of the United States Environmental Protection Agency (U.S. EPA) is issuing this Notice of Violation (NOV) under Section 113(a)(1) of the Clean Air Act, 42 U.S.C. § 7413(a)(1). U.S. EPA hereby notifies the State of Illinois and Segerdahl that U.S. EPA finds Segerdahl located at 1351 South Wheeling Road to be in violation of the Federal revisions to the Illinois State Implementation Plan, which were approved on June 29, 1990, at 40 C.F.R. § 52.741, and are part of the federal enforceable implementation plan for the State of Illinois.

Statutory and Regulatory Background

1. On September 9, 1994, 35 Illinois Administrative Code (IAC) Part 218: Organic Material Emission Standards and Limitations for the Chicago Area, was approved by the Administrator of the U.S. EPA (59 Fed. Reg. 46569), replacing the federal revisions to the Illinois State Implementation Plan found at 40 C.F.R. § 52.741, effective October 11, 1994.
2. The Federal regulations found at 40 C.F.R. § 52.741(e) set forth rules for coating operations.
3. Pursuant to 40 C.F.R. § 52.741(e)(6), any owner or operator of a coating line subject to the limitations set forth at § 52.741(e)(1) and § 52.741(e)(2), shall comply with the following:

By July 1, 1991, certify to the Administrator that the facility is exempt under the provisions of § 52.741(e)(3); or

By July 1, 1991, or upon initial start-up of a new coating line, the owner or operator of the subject coating line shall certify to the Administrator that the coating line will be in compliance with the emission limitations or the control device efficiency requirements set forth at 40 C.F.R. § 52.741(e)(1) and 40 C.F.R. § 52.741(e)(2) on or after July 1, 1991.

This "Certification of Compliance" must be complied in the manner set forth at 40 C.F.R. § 52.741(e)(6).

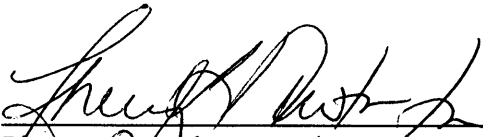

Factual Background

4. Segerdahl owns and operates a printing and coating facility located at 1351 South Wheeling Road, Wheeling, Illinois 60090 which is a VOM source.
5. The facility is located in Lake County, an area which is designated as a severe non-attainment area for ozone.
6. Segerdahl Corporation owns and operates seven lines, #20 through #26. Each line is capable of conducting heatset web offset lithographic printing and paper coating operations.
7. Segerdahl is currently using adhesives #1777F and 700C, in its printing and paper coating lines.
8. Adhesive #1777F and 700C have a VOM content of 3.66 lbs/gal and 7.92 lbs/gal, respectively.
9. Segerdahl exceeds 15 pounds per day of actual emissions of VOM from all lines at the source.

Findings of Violation

10. Segerdahl failed to timely submit a certification of compliance with or exemption from the coating regulations found at 40 C.F.R. § 52.741(e) for lines #20 through #26, in violation of 40 C.F.R. § 52.741(e)(6).
